Education

GLA University, B.Tech in Computer Science (CGPA: 8.14)

Saraf Public School, Intermediate (84%)

Saraf Public School, High School (84%)

Internship / Training

AI for All: From Basics to GenAI Practice

- Completed training in Artificial Intelligence fundamentals and Generative AI applications.
- Gained hands-on exposure to AI tools and modern AI workflows.

Projects

Vital-X (Full Stack Health Intelligence Platform)

- Built a full-stack health platform using Firebase and Google Gemini AI for personalized health tracking.
- Implemented real-time database synchronization using Firebase Firestore with offline persistence.
- Integrated AI-powered health assistance using Gemini 1.5 Flash.
- Developed features like menstruation tracking, diet monitoring, and health insights.
- Designed secure authentication using Firebase Authentication.
- Created a responsive and mobile-friendly UI/UX.

Technical Skills

Languages: C, Python, Java

Web/Tech: React, Node.js, MongoDB, MySQL

Professional Skills: Communication, Teamwork, Interpersonal Skills

Coding Profiles

LeetCode: Active problem solver in Data Structures and Algorithms

leetcode.com/u/guptagarv07

Achievements

- Winner – HackCentrix (GLA University): Developed Vital-X, an AI-powered personal health companion with real-time data sync.

Co-Curricular Activities

- Active participant in hackathons and technical events.
- Coordinated SRIJAN (Cultural Fest, GLA University, September 2024).
